- 3D Modeling / BIM (ArchiCAD, FormZ, Revit 2010)
  - Artistic renderings, Photo-Realistic renderings, basic animation.
- Post process rendering and graphic layout
  - Adobe CS3 Photoshop, Illustrator, In Design
- Basic Web design (Dreamweaver)
- Word Processing and Presentation (Microsoft Office)
- Skilled in Macintosh and Windows operating systems

## Residential Design and Construction Experience

- I have been involved in residential projects from the initial conceptual design phase through final construction.
- I am personally responsible for the construction drawings for 11 new production home plans in 4 different geographical regions. Ohio and Kentucky (4), Texas (3), Tennessee (2), and North Carolina (2) plus numerous projects related to existing plans. Each project involved unique problem solving opportunities requiring me to build my skill set and knowledge base of: engineering / structure / truss design, construction monitoring, and code interpretation.

## Commercial Design and Construction Experience

- At Glaserworks I was involved with several projects in Over the Rhine including the design of a multi building condo conversion (concept through design development.)
- At FRCH I was personally involved in 3 Las Vegas projects and completed work including: Existing drawings, field surveying, pre-design and construction drawings. (Tropicana, Treasure Island, and Monte Carlo)
- Also at FRCH I was involved in the schematic design of a new prototype for Hampton Inn. I was personally involved in assembling design components, site design, and square footage / land use calculations for 3 separate schemes.

## Personal Interests and Goals

- Revitalization of Over The Rhine and urban Cincinnati
- Vital, dense, urban environments.
- Energy efficient and sustainable architecture
- Sustainable real estate development
- To design and build the first LEED Platinum residential development in urban Cincinnati.
- Designing and fabricating furniture
- Ancient Japanese architecture
- Digital photography
